

**When My Mother was in Primary 4**

My mother is thirty-nine years old now. She talked about her school life when she was in Primary 4.

There were not any computers in her school when my mother was young. There were not any air-conditioners, either. There were not any music rooms. It was very inconvenient.

Nobody played electronic games in her class. Everybody played hide-and-seek and hopscotch. They also played chess. She liked hide-and-seek because it was interesting.

She could go to school by herself. She went to school on foot. She did not have a tutor because she could handle her homework by herself.
