### **When My Mother was in Primary 4**

My mother is forty-five years old now. She talked about her school life when she was in Primary 4.

When my mother was in Primary 4, there was a music room a playground but there were not any air-conditioners or computers in her school. So she felt hot in summer and couldn't do online learning.

Nobody played electronic games in her class. Everybody played hide-and-seek and hopscotch. My mother's favourite game was hide-and-seek because it was fun.

My mother could go to school by herself. She went to school on foot. It was tiring.

My mother didn't have a tutor because her family was poor. But she studied hard by herself.
