Improving Myself

My name is Justin. My class is 4C. I want to improve myself because it helps me to prepare for the future.

I didn't do well in Chinese reading comprehension. Maybe I seldom read Chinese storybooks. So I'm going to read more Chinese storybooks and do more revision every day. Then I will be good at Chinese.

I didn't do well in English reading comprehension because I could not guess and understand the meanings of the words. So I'm going to read more English ^(storybooks) storybooks and do revision every day. Then I will get an A in English.

I believe I can improve because efforts can be successful.

Nice work!
