Students use many ways to contact people. Most students always chat online with their friends, through some applications, for example, Whatsapp, Wechat and Line.

Some students usually use tablets ^{to} communicate with each other. They upload photos to Facebook or Instagram to share their experience. Besides, they upload some videos on Youtube. (travel)

Nowadays, most students seldom write letters. I like video chat because I can talk to my relatives face-to-face in different communication ways.
