

5A Tracy Kwan (16)

Dear Roy,

How are you? I am glad that you are coming to Hong Kong. There are some interesting places that you can go.

You can go to Tai O to see the captivating pink dolphins. They are getting fewer and fewer because of water pollution. I like them very much as they are so innocent. I have been to there twice. I also ate seafood there.

You can also go to Ocean Park to take the exciting rides. I have been there more than three times. I have ridden the roller coaster and taken the Flying Swing. I think it is a good place in Hong Kong. Then, you can go to the Space Museum to watch the sky show. That is unbelievably beautiful. I think it is beyond reality... I think you need to go there because you can learn about the galaxy and satellite.

Lastly, you can go to the Hong Kong Science Museum to do experiments. I have been there once. I can learn about the scientific theory. If you have a great interest in science, I highly recommend you to go there!

I hope you will enjoy your stay in Hong Kong.

Love,

Eric
