My Accident

At the Mid-Autumn Festival, My family, relatives and I were having a joyful family dinner. I enjoyed roasted chicken, mooncakes and steamed fish with others! This was a tasty dinner.

Then, I played lanterns with my cousins. My lantern was full of stars, ^{shaped} patterns, it was beautiful. I also shared starfruits with my brother.

Suddenly, my lantern was on fire. I was scared and shouted 'Oh no! It's on fire!' My brother poured a bottle of water immediately. However, my fingers ^{was} still hurt. so I needed to stick a band-aid on my finger for a few days.

After this experience, I learnt that I need to be calm and careful when accidents happen. and I should think of some ways to solve the problem quickly.

Fluent and good sentence structure 😊
