

My Accident

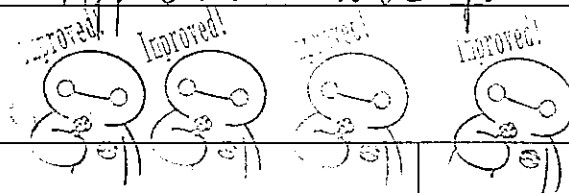

My favourite festival is Mid-Autumn Festival. I had a special night at Mid-Autumn Festival. First, my family, relatives and I were having family dinner together.

After dinner, we went to the rooftop to play and watch the beautiful ^{full} moon. My cousin and I played with lanterns. Some pictures were drawn on the lanterns, they were so cute! Next, my mum and relatives chatted happily and enjoyed the fresh fruits and mooncakes.

Suddenly, my sister's lantern was on fire, we were shocked and didn't know what we could do. I shouted loudly, 'Oh no! It's on fire! Help! Help!' When dad heard the sound, he came and stepped on the lantern to put out the fire. Fortunately, the wind was not strong so the fire did not spread out.

It was an unforgettable day! We had a joyful and special night. After this experience, I will be careful and play electronic lanterns next time.

Excellent Tammy! Appreciate with your hard work 😊
